ORD 5119-71 **1 0** AUG 1971

MEMORANDUM FOR: All ORD Division Chiefs

SUBJECT

: TSD Priority R&D Requirements for FY-72

1. The Technical Services Division of the Clandestine Services has completed an extensive review of their high priority R&D requirements. These requirements have been validated as a result of their meetings at and with the Technical Review Board of the Clandestine Services. A copy of these requirements is attached for your review. I should like to have each of the Division Chiefs involved in these four high priority areas get together with the appropriate TSD Program Managers and provide me with information regarding the degree and extent to which we can support the TSD requirements in light of our current resources.

2. In addition, TSD has provided us with a memorandum which indicates some of the R&D projects initiated by ORD which have proved to be of substantial value to the Clandestine Services. I feel that this provides the kind of feedback which is so essential to a Research and Development organization.

Robert M. Chapman
Director of Research and Development
